

LITIGATION SUPPORT & FORENSIC SERVICES

In today's dynamic legal environment, attorneys are presented with increasingly complex financial and accounting issues. Having the knowledge and insight of experienced professionals is essential when you are in need of forensic accounting and/or litigation support services.

Hancock Askew Advisor's forensic accounting and litigation support team is composed of professionals with extensive first-hand experience on and off the stand. Our skilled group includes CPAs, Certified Fraud Examiners and Certified Valuation Analysts – all of whom have extensive experience in providing litigation support services.

We are qualified as expert witnesses in both Federal and State courts and we go beyond the call of duty as your witnesses; we provide trustworthy, seamless support as an integrated member of your team.

Building a strong case requires technical skill and experience as well as professionalism and established credibility, all of which are qualities that define the work that we do. We serve as your comprehensive, objective resource and we welcome the challenge of meeting the deadlines and demands of a complex case.

We will work closely with you throughout an engagement to ensure the information we provide is relevant and valuable.
